

## From The Quarter Horse Album

WHEAT'S TONY is the subject of our picture from the Quarter Horse Album. This great horse left quite a mark on the horses around Sonora, Texas. He was sired by a Sykes Horse and out of a mare by Traveler. Although we do not know when this picture was made, and it does not give too much detail, we thought our Quarter Horse readers would like to see the picture. We are indebted to Jack and Elvie Turney, Sonora, Texas, for securing the picture from Mrs. Ed. C. Mayfield.

### OLD TONY WAS A STOLEN COLT

"I notice the picture and pedigree of our old Tony in your last issue. The picture is authentic, but the pedigree is not.

"Old Tony was a stolen colt, brought here by an old Rock-springs blacksmith for Sweeten and Wallace of Barksdale, Texas, in Edwards county. Wallace is still alive but his mind is blank about Tony.

"We bred Tony on this ranch from 1910 to 1919 the year of his death; before that time he was bred at Barksdale.

"Nobody knows where he came from.—Respectfully, Gus D. Wheat, Sonora, Texas."
